

CHISEL PLOUGH

Primary Tillage
Implement for Deep

Tillage used in
Soil Preparation.

MADFI

Product Description

Works deep beneath the surface. Ideal when topsoil is fertile but subsoil is not productive.

Shatters the soil well below the surface.

Does not invert or turn the soil, causing limited soil distribution.

Loosen and aerate soil, leaving crop residue at top of soil.

Reduces the effect of Compaction.

Help increasing water storage capacity.

Help break-up hardpan.

More tractor power required per shank. (10-15HP)

Removing the side shanks turns this implement into a sub soiler.

Replaceable Shanks/Points.

Specifications

Heavy steel box V-type frame without bolt and nut.

Three easily replaceable tines designed to penetrate up to 20" without much effort.

Shovels easily replaceable.

Working width 1.20m (Meters).

Tractor compatibility 50-85 Horse power (hp).
